

Charan kumar J

M.Tech Computer Science Engineering Student

[9363667351](tel:9363667351) | charankumari23@gmail.com | Salem, Tamilnadu

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Objective

Aspiring Computer Science Engineer seeking an internship opportunity to apply technical skills in Artificial Intelligence, Software Development, Full Stack Development, and Web Development, gain hands-on industry experience, and contribute to innovative solutions while continuously learning and growing professionally.

Education

Sri Ramakrishna Engineering College, Coimbatore

M.TECH Computer Science Engineering (5 years integrated) - GPA 7.8

SRK Matric Higher Secondary School, Salem

Higher Secondary Certificate (HSC) – 86.5 %

Technical Skills

Programming Languages: Python (Basics), Java (Basics), C, JavaScript

Frontend: HTML5, CSS3, React.js

Backend: Node.js, Express.js

Databases: MongoDB, SQL

AI / Computer Vision: TensorFlow, OpenCV, Mediapipe, Numpy

Tools & Platforms: Git, GitHub, VS Code, Figma, Android Studio

Experience

Mist Software Solutions (2 Weeks)

Web Development Intern

- Developed responsive web pages using HTML, CSS and JavaScript.
- Assisted in frontend development and UI improvements.
- Worked with team members to understand web development workflows.

Gateway Software Solutions (2 Weeks)

UI / UX Intern

- Designed user interface mockups and prototypes using Figma.
- Assisted in dashboard design and usability improvements.
- Collaborated with developers during the design-to-development process.

Projects

1. Water Supply Notification System

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed a full-stack web application for managing and publishing water supply notifications.
- Built an admin dashboard to upload and manage water supply schedules and announcements.
- Developed a customer-facing portal to view area-wise water supply updates.
- Implemented REST APIs for efficient data management and retrieval.
- Designed a responsive user interface for better accessibility across devices.

2. Yoga Posture Detection System

Tech Stack: Python, TensorFlow, MediaPipe, OpenCV

- Developed a real-time yoga posture detection system using computer vision techniques.
- Utilized MediaPipe for body keypoint extraction and pose estimation.
- Analyzed user posture and provided feedback based on detected body positions.
- Integrated machine learning concepts to improve posture recognition accuracy.

3. Smart Bus Tracking & Notification System

Tech Stack: React.js, Node.js, MongoDB

- Developed a web-based platform for managing bus route and schedule information.
- Designed admin and user dashboards for route management and notification updates.
- Implemented notification features to inform users about schedule changes and delays.
- Built responsive interfaces for easy access to transportation information.

Certifications

- C Basics– Skillrack
- Basics of Python – Infosys Springboard
- Design Thinking & Sociology of Digital Media – Sri Ramakrishna Engineering College

Strengths

Quick Learner | Problem Solving | Team Collaboration | Adaptability

Area of Interest

Software Development | Full Stack Development | Frontend Development | Web Development

Languages

Tamil | English
